PROFESSIONAL SUMMARY

Software engineer building and operating business applications since 2021, with experience across **backend services, AWS infrastructure, and full-stack delivery**. Develops APIs with Python/FastAPI, C#/.NET, and PHP/Laravel; automates infrastructure with Terraform and Terragrunt; and supports Linux production systems. Work includes admissions CRM workflows, government APIs, MongoDB replica-set scaling, and EKS autoscaling, alongside development supervision, release coordination, and onboarding.

TECHNICAL SKILLS

Programming languages: Python, C#, PHP, C++, JavaScript.

Backend & APIs: FastAPI, ASP.NET Core, Laravel, Node.js; REST APIs, authentication, queues, scheduled jobs, caching, third-party integrations.

Frontend development: React, Next.js, Vue.js.

AWS cloud: EKS, EC2, VPC, IAM, S3, RDS, Route 53, WorkSpaces, Secrets Manager.

Infrastructure & delivery: Terraform, Terragrunt, HCL; Docker, Kubernetes, Helm, JFrog; GitHub Actions, continuous integration and delivery (CI/CD).

Databases & caching: MongoDB replica sets, PostgreSQL, MySQL, Microsoft SQL Server, Redis; SQL optimization and database scaling.

Data engineering: Databricks, big data management, data warehousing.

Systems & networking: Linux, Nginx, Apache, Supervisor, cron; firewalls, SSL/TLS, strongSwan IPsec VPN.

Identity & access: Okta application, user, and group management; Linux users and permissions.

Observability: Datadog, Amazon CloudWatch; application and infrastructure monitoring.

Tools & collaboration: Git, GitHub, GitLab, Postman, Jira; Agile/Scrum.

PROFESSIONAL EXPERIENCE

BHE Uni

2025 - Present

Full Stack / Infrastructure Engineer

Admissions technology, full-stack development, production delivery, and team supervision

- **Admissions CRM:** Build workflows for leads, agents, people, courses, applications, and documents, with appointments, status histories, and notes, using FastAPI, Laravel, Next.js, and React.
- **Lead lifecycle integration:** Integrate Meta Graph API lead collection with scoring, counselor assignment, notifications, and enrollment tracking.
- **Backend performance & delivery:** Optimize Laravel queues, schedulers, Redis caching, and SQL; manage deployments and production support with GitHub Actions, Docker, Nginx, and SSL/TLS.
- **Web platforms:** Lead development of bheuni.uk and ambassador.bheuni.uk; improve SEO for bheuni.io and supervise the launch of bangladesh247.com.
- **Team delivery:** Supervise development progress, coordinate Scrum updates, and support onboarding across development and release activities.

PROFESSIONAL EXPERIENCE - CONTINUED

D2Soft Intelligence
2022 - 2025

Program Manager

Hands-on cloud infrastructure, backend engineering, and Linux operations

- **Cloud infrastructure:** Operated AWS EC2, VPC, WorkSpaces, and Secrets Manager; automated infrastructure provisioning and configuration with Terraform and Terragrunt.
- **Database scaling & monitoring:** Deployed and scaled MongoDB replica sets on EC2; monitored applications and infrastructure with Datadog and Amazon CloudWatch.
- **Backend & delivery automation:** Developed FastAPI, ASP.NET Core, and Laravel services; automated container registry, container management, and caching tasks in Python; maintained JFrog artifact and container workflows.
- **Systems & networking:** Administered Linux users, permissions, and firewalls; configured Apache, Nginx, Supervisor, and strongSwan VPN connections.
- **Product & domain engineering:** Contributed to bakome.com and government and aerospace projects using C++, Python, and AWS.

Bangla Puzzle Limited
2021 - 2022

Web Developer

Government APIs, commercial applications, and interactive real estate platforms

- **Government platforms:** Developed the e-commerce API backend for sadai.gov.bd and field monitoring APIs for government health and family planning operations.
- **Application integrations:** Developed mojargames.com APIs, contributed Vue.js features, and integrated APIs with a Unity application.
- **Interactive visualization:** Managed real estate websites using Unreal Engine Pixel Streaming for real-time building and interior rendering, supporting broker and property developer workflows.
- **Payments & deployment:** Delivered Laravel applications with bKash and SSLCommerz integrations; managed Linux hosting and deployments.

ADDITIONAL ENGINEERING EXPERIENCE

- **Kubernetes scaling:** Implemented autoscaling for Amazon EKS clusters using Helm and HCL-based infrastructure configuration.
- **Identity administration:** Managed Okta applications, users, and groups at scale.

EDUCATION

M.Sc. in Computer Science 2024 - Present

Jahangirnagar University

Research: AI Applications in Medical Science

B.Sc. in Computer Science & Engineering 2017 - 2020

Daffodil International University

TRAINING & LANGUAGES

Genuity Training: Network & System Administration; Web Design & Development.

Languages: Bengali (Native), English (Professional).
