From business workflows to dependable production systems. Full Stack Developer with 5+ years of experience building web applications, APIs, and cloud infrastructure. Combines .NET, Laravel, and JavaScript engineering with hands-on deployment, database optimization, and production support.

5+

years building
and operating
web systems

01 / EXPERIENCE

BHE Uni

2025 - Present

Full Stack Developer

- Own full-stack delivery and production operations for a university lead-management and enrollment platform used by counselors and operations teams.
- Built Meta Graph API integrations to automate lead collection, scoring, counselor assignment, notifications, and enrollment tracking.
- Implemented queues, schedulers, Redis caching, authentication, and optimized SQL within maintainable Laravel service and repository layers.
- Manage GitHub Actions CI/CD, Docker releases, Nginx, SSL/TLS, and rollback-aware deployments; support technical hiring and onboarding.

D2Soft Intelligence

2022 - 2025

Program Manager / Senior Software Engineer

- Led delivery across enterprise applications, cloud infrastructure, and technical team operations.
- Designed and operated AWS environments spanning EC2, VPC, Route 53, RDS, load balancing, S3, IAM, and monitoring.
- Provisioned infrastructure with Terraform and deployed containerized workloads using Docker and Kubernetes.
- Developed enterprise systems with Laravel, ASP.NET Core, Node.js, React, Next.js, microservices, and WebSockets.

Bangla Puzzle Limited

2021 - 2022

Web Developer

- Delivered Laravel, Vue.js, React, and jQuery applications for private, public, and government organizations.
- Integrated bKash and SSLCommerz payments; managed Linux hosting, deployments, and production troubleshooting.

02 / CORE STACK

Backend engineering

ASP.NET Core · Laravel / PHP ·
Node.js · Express.js · Python ·
FastAPI · REST APIs · OAuth2

Frontend development

React · Next.js · Vue.js ·
AngularJS · JavaScript

Databases & data

PostgreSQL · MySQL · MSSQL ·
Redis · Databricks

Cloud platforms

AWS · Azure
GCP architecture concepts

Infrastructure & delivery

Terraform · Docker · Kubernetes ·
GitHub Actions · CI/CD · Linux ·
Nginx · Apache · SSL/TLS

03 / STRENGTHS

Application architecture

System design, microservices,
asynchronous jobs, caching, and
real-time workflows.

Production operations

Server, network, and database
administration; release
management and troubleshooting.

Team contribution

Delivery leadership, technical
screening, hiring, and onboarding
support.

Built for the *real world*.

Selected work across product engineering, infrastructure, and production delivery.

04 / SELECTED PROJECTS

- 01

University Lead Management Platform

Built connected workflows for lead ingestion, scoring, counselor assignment, follow-up, notifications, and enrollment tracking. Owned application delivery and production deployment.

Laravel / Meta Graph API / Redis / SQL
- 02

Multi-Cloud Application Delivery

Delivered backend systems and infrastructure across AWS and Azure, including storage, queues, and relational databases. Applied architecture patterns adaptable to GCP-based workloads.

AWS / Azure / Terraform / Docker
- 03

Infrastructure Automation

Created reproducible environments through Terraform provisioning and Docker-driven CI/CD. Connected deployment workflows with Linux hosting, Nginx, SSL/TLS, and release configuration.

Terraform / GitHub Actions / Docker / Linux / Nginx
- 04

Backend API Platforms

Developed REST platforms with authentication, relational data design, and payment integrations. Supported the full operational lifecycle from hosting and deployment to troubleshooting.

ASP.NET Core / Laravel / Node.js / PostgreSQL

05 / EDUCATION

2024 - Present

M.Sc. in Computer Science

Jahangirnagar University

Research: AI Applications in Medical Science

2017 - 2020

B.Sc. in Computer Science & Engineering

Daffodil International University

06 / TRAINING

Network & System Administration

Genuity Training

Web Design & Development

Genuity Training

07 / WORKING TOGETHER

Workflow

Agile / Scrum · Jira · Postman · GitHub · GitLab

Languages

Bengali (Native) · English (Professional)

Full-stack engineering. Production ownership.

Dhaka, Bangladesh · Open to remote opportunities
