

Md. Tanvir Hasan Anik

Cloud & Backend Software Engineer

tanviranikcs@gmail.com +880 1887 454489 tanviranik.com
github.com/ProAnik linkedin.com/in/md-tanvir-hasan-anik-8711551ba

Software engineer working across **AWS infrastructure, backend development, and Linux operations** since 2021. Experience spans government, aerospace, e-commerce, and education systems, with hands-on work in infrastructure as code, MongoDB scaling, API development, and Python automation. Connects application delivery with the infrastructure, monitoring, and administration needed to run it.

Cloud infrastructure	Backend programming	Linux & server operations
AWS / Terraform / Terragrunt MongoDB / Monitoring	Python / .NET / Laravel / C++ APIs / Automation	Administration / Networking Web servers / VPNs

PROFESSIONAL EXPERIENCE

BHE Uni

2025 - Present

Full Stack Developer / Education technology

- Build and operate a **university lead-management and enrollment platform**, covering backend development, deployment, and production support.
- Integrate the **Meta Graph API** for automated lead collection, scoring, counselor assignment, notifications, and enrollment tracking.
- Develop Laravel services with queues, schedulers, Redis caching, and SQL optimization; maintain release workflows using **GitHub Actions, Docker, Nginx, and SSL/TLS**.

D2Soft Intelligence

2022 - 2025

Program Manager / Cloud infrastructure & software engineering

- Built and operated **AWS environments** using EC2, VPC networking, WorkSpaces, and Secrets Manager for application infrastructure, virtual desktops, and secrets management.
- Automated infrastructure provisioning and configuration with **Terraform and Terragrunt**; maintained **JFrog** artifact and container workflows.
- Deployed, administered, and **scaled MongoDB replica sets on EC2**; monitored infrastructure and applications with **Datadog and Amazon CloudWatch**.
- Developed backend services using **Python/FastAPI, C#/.NET, and PHP/Laravel**, connecting application features with databases and cloud services.
- Built **Python automation** for container registry operations, container management, and caching workflows.
- Contributed to **bakome.com** and government and aerospace projects involving **C++, Python, and AWS**.
- Administered **Linux servers, users, permissions, and firewalls**; configured Apache, Nginx, Supervisor processes, and **strongSwan VPN** connections.

PROFESSIONAL EXPERIENCE / CONTINUED

Bangla Puzzle Limited

2021 - 2022

Web Developer / Government & commercial applications

- Developed the **e-commerce API backend** for the government platform **sadai.gov.bd**.
- Built the **backend for a field monitoring application** supporting government health and family planning operations.
- Delivered Laravel applications, integrated **bKash** and **SSLCommerz** payments, and managed Linux hosting, deployments, and production troubleshooting.

TECHNICAL SKILLS

01	Cloud & infrastructure	AWS: EC2, VPC, WorkSpaces, Secrets Manager, IAM, S3, RDS, Route 53, CloudWatch. Infrastructure as code: Terraform, Terragrunt. Delivery: Docker, Kubernetes, JFrog, GitHub Actions, CI/CD. Monitoring: Datadog, CloudWatch, application and infrastructure monitoring.
02	Programming & backend systems	Core: Python, FastAPI, C#, ASP.NET Core, PHP, Laravel, C++. Backend: REST APIs, authentication, queues, scheduled jobs, caching, container registry automation. Data: MongoDB replica sets, Redis, MySQL, PostgreSQL, Microsoft SQL Server. Supporting stack: JavaScript, Node.js, React, Next.js.
03	Operating systems & server administration	Administration: Linux, server configuration, user and permission management, deployment troubleshooting. Networking & access: VPC networking, firewalls, SSL/TLS, strongSwan IPsec VPN. Services: Apache, Nginx, reverse proxies, Supervisor, background workers, cron scheduling.

EDUCATION

M.Sc. in Computer Science Jahangirnagar University Research: AI Applications in Medical Science	2024 - Present
B.Sc. in Computer Science & Engineering Daffodil International University	2017 - 2020

TRAINING & WORKING PRACTICES

Training: Network & System Administration; Web Design & Development - Genuity Training.
Everyday tools: Git, GitHub, GitLab, Postman, Jira. **Workflow:** Agile / Scrum.
Languages: Bengali (Native), English (Professional).
